60 employees
8 million pieces
per year.

Camacho cosmetics is a second generation manufacturing company engaged in the production of cosmetic products for more than 40 years. We comply with the most demanding technical requirements of our industry to offer purely professional make-up. Our goal is innovation and excellence, creating competitive, efficient and safe cosmetic products to meet the changing needs of our society. Backed by the product control required by new European regulations on good manufacturing practices, ultimately ensuring the safety and welfare of the consumer. The rigorous teamwork of technical and marketing departments has succeeded in unifying creativity and security, offering our customers a comprehensive care product, packaging and trends, creating a key added value to achieve market differentiation.

(five free tested).

For your brand

Nail polish

Long-lasting nail polish, with semitransparent, creamy, pearly, satin and high coverage finishes; highly adherent and glossy, and very easy to apply for a perfect result that guarantees its durability on the nail.

Semitransparent: low coverage glitter gel nail polish, perfect for manicures with a very natural finish, such as "French manicure" or, in contrast, trendy nail polish with glitter particles to achieve different effects.

Full coverage / "one touch nail polish": high coverage nail polish that only requires a single coat. Trends: crackle, matte and satin, neon colors, perfumed, "crazy French", magnetic, sugar nails and mosaic effects.

Nail treatment

Extensive range comprising over 85 treatments for complete nail care. Our main treatment groups include hardeners, protein oils, cuticle removers, smoothers, whiteners and vitamin-enriched bases.

Active ingredients for crystal effect treatments: vitamin E, vitamin F, aloe vera, silk proteins, Jojoba oil, oats, seaweed, Korean ginseng. Active ingredients for opaque effects: nylon, teflon, diamond dust.

Organic silicon-based treatments with great moisturizing and restructuring properties, helping to restore the nail to its "healthy" and natural look after application.

Lips

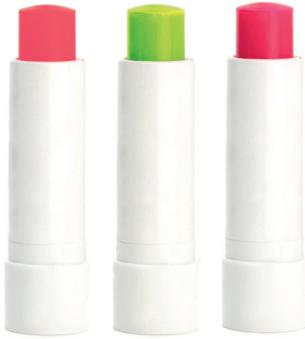

lipstick

lipgloss

lip balm

lipliner

For your
brand

Lip balm stick

New concept of lip balms to maintain and protect the lips while providing flavor and aroma to stimulate the senses. They contain spf-15 sunscreen and are enriched with shea butter, aloe vera, rosehip oil and vitamin E.

Lipstick

Lipstick made in classic and innovative textures, oil free and paraben free (no fats and very light), offering different satin and creamy high coverage finishes for any type of make-up.

Lip balm sorbet

Lip balm in vinyl gloss cream providing softness and comfort to the lips with active ingredients to achieve a luminous and radiant appearance. Available in neo-fluoride colors that make it a special cosmetic product.

Lipgloss

Intense lipglosses that include a wide range of tones and textures achieving results from semi-gloss (wet lips) to vinyl gloss and permanent gloss with a matte finish. Very comfortable formula (non-sticky).

Face

foundation

face powders

blush

liquid blush

For your
brand

Blush

Trendy product reinvented to meet the demands of the market by offering matte, gloss and sparkling colors, all of them formulated in micronized textures to achieve an extremely smooth product with great affinity with the skin.

Bronzing powder

Compact powder for a tanned skin with a single stroke, the formula is designed for an even application to achieve a perfect finish. Formula with sunscreen enriched with vitamin E (finishes: satin, matte and gloss).

Liquid blush

Color ink providing a very natural skin tone. A new concept of the classic blush although it can also be used on the lips to increase tone without losing naturalness (gloss can also be applied).

Translucent powder

Mattifying ultrafine and silky powder that avoids shine on oily complexions without leaving any marks, providing a perfect skin texture for applying make-up. Formula enriched with rosehip oil, aloe vera and vitamin E.

Foundation

Liquid foundation in different textures for different skin types and needs: tensing, moisturizing, semitransparent and formulated with micronized pigments allowing greater affinity with the skin as well as great comfort.

backinjection

For your

brand

Compact eyeshadow

Large variety of textures and finishes, ranging from matte eyeshadow to a highly metallic shine. Our formulas achieve skin-like smoothness for better adherence. Easy to apply and great color.

Injection eyeshadow

With injection technology we can increase the performance of the pigment or pearls achieving very extreme effects. A special product to combine various shades in the same godet, minimizing costs.

Mascaras

Essential product for any type of make-up. Different mascaras for different results, volume, long lash, waterproof, all in one (a mousse texture that ensures thick, separated eyelashes all day).

Khol

Revived vintage product that highlights the eyes, achieving very extreme effects. Thanks to its versatility it can also be used as eyeshadow for perfect soft tones (black and colors).

Eyeliner

One-stroke quick-drying defining eyeliners. Available in pen format for easier application and in brush format for more precision (enriched with vitamin E).

Eyebrow

Products designed to alleviate eyebrow hair loss. Powder shadow format (for more natural results), small tube of cream (waterproof tattoo to redraw any eyebrow) and wooden pencil (classic use).
